**ARP SOLOIST MK II**  
ELECTRONIC MUSIC SYNTHESIZER

The new ARP SOLOIST Mk II lets musicians play virtually any musical instrument sound with astounding realism. The SOLOIST can sit on top of any organ and play through the organ's own amplifier, or it can be mounted on its own stand and connected to any guitar amplifier for combo playing.

The all-digital design means new standards in performance: fool-proof keyboard triggering, superior resistance to mechanical vibration, moisture, and temperature change.

The modular digital design also revolutionizes servicing. Every circuit and switch is mounted on one of six plug-in cards. Servicing is simply a matter of replacing any circuit card—an operation that can be done by any serviceman in just a few minutes.

SOLOIST comes complete with Owner's Guide, "Soloist Solos" Songbook, connection cables.

DIMENSIONS: 35" x 13" x 4"  
WEIGHT: 24 lbs.

**15 INSTRUMENTAL VOICES**

- Bassoon
- English Horn
- Oboe
- Clarinet
- Flute
- Tuba
- Trombone
- French Horn
- Trumpet
- Cello
- Violin
- Bass
- Piano
- Banjo
- Fuzz Guitar

**VARIABLE EXPRESSION CONTROLS**

- Portamento Speed*—lets you 'slide' between notes.
- Touch Sensitivity*—varies the response of the keyboard touch sensors.
- Transpose*—extends the range of your SOLOIST keyboard to five octaves.
- Brilliance*—make each voice brighter or more muted.
- Volume*—balance SOLOIST volume with organ or combo instruments.

**TOUCH SENSOR EFFECTS**

*It's a real touch sensitive keyboard that responds naturally to your finger pressure. The harder you press on a key, the more of these effects you can create:*

- Pitch Bend*—makes the sound wail.
- Wow*—the classic 'synthesizer' sound.
- Growl*—make any SOLOIST voice really grrrrrrrowl, just by pressing a little harder.
- Brilliance*—gives any note extra brightness.
- Volume*—gives you touch-control of dynamics.
- Vibrato*—add expressive vibrato just where it's needed. Sound like a great pro.
- Repeat Switch*.
- Vibrato/Repeat Speed*—varies the speed of these expressive effects.

**ON BACK OF SOLOIST:**  
The Soloist connects to your organ, amp, or Leslie.  
*Tuning Control*—Tune the SOLOIST easily to any other musical instrument.

**All new.  
Digital modular design!**
